

SEMPA SYSTEMS GmbH develops, manufactures, installs and services high purity supply systems and offers turn-key solutions to the semiconductor, photovoltaic, glass fiber, printed electronics, automotive, pharmaceutical industries as well as to research institutes and universities. From our sites in Dresden, Hermsdorf and Skt. Petersburg and in collaboration with our cooperation partners' we serve a global customer base.

Our team of 80 professionals is dedicated to exceed our customer expectations.

To further strengthen our research & development at our headquarter in Dresden we are looking for a

Development Manager (m/f/d)

Your profile

- Academic degree in engineering or natural sciences
- Experience in running research or coordinated development projects; high affinity to technical challenges and elaboration of complex technical solutions
- Reliability and customer intimacy, entrepreneurial thinking, communication openness and conscientious working within a team and independently
- Business fluent in German and very good English language skills
- Willingness for national and international travel

Your tasks

- Working on coordinated development projects, finding solutions for specific customer requests
- Economical and technical project conception, execution with responsibility for project progress and cost for complex, highly redundant gas and chemical delivery systems
- Customer service and technical support through failure analysis and fault elimination
- Steering of small cross functional project teams out of hard and software engineering, mechanical and electrical manufacturing

We offer

- Permanent employment contract with attractive and performance based remuneration
- Diverse and forward-looking work in modern environment and possibility for individual personal development
