

SEMPA SYSTEMS GmbH develops, manufactures, installs and services high purity supply systems and offers turn-key solutions to the semiconductor, photovoltaic, glass fiber, printed electronics, automotive, pharmaceutical industries as well as to research institutes and universities. From our sites in Dresden, Hermsdorf and Skt. Petersburg and in collaboration with our co-operation partners' we serve a global customer base.

Our team of 80 professionals is dedicated to exceed our customer expectations.

To further strengthen our project management at our headquarter in Dresden we are looking for a

Project Manager (m/f/d)

Your profile

- Academic degree in engineering or natural sciences, for instance in process technology
- Several years' experience in mid-sized companies in the field of machinery and system engineering. Skills in ERP software are of advantage
- Reliability and customer intimacy, entrepreneurial thinking, communication openness and conscientious working within a team and independently
- Business fluent in German and very good English language skills
- Willingness for national and international travel

Your tasks

- Independent analysis of customer requirements and responsible project management within Germany, Europe and across the world
- Project acquisition, economical and technical project conception, execution with responsibility for project progress and cost for complex, highly redundant gas and chemical delivery systems
- Customer service and technical support through failure analysis and fault elimination
- Steering of small cross functional project teams out of hard and software engineering, mechanical and electrical manufacturing and quality control for global assembly work

We offer

- Permanent employment contract with attractive and performance based remuneration
- Diverse and forward-looking work in modern environment and possibility for individual personal development
